

UDOT declares weekend I-15 closure near Spanish Fork

Published: Monday, June 14, 2010 6:28 p.m. MDT

SPANISH FORK — The Utah Department of Transportation is closing I-15 in Spanish Fork on Saturday night, from 10 p.m. to 11:30 a.m. Sunday morning.

Crews are going to remove the 2700 North bridge, which is called 1600 South, in Springville. During the freeway closure, drivers will be detoured around construction — northbound, at the Spanish Fork Main Street exit and southbound, at the Springville 400 South exit.

The bridge is one of 55 being replaced and restored as part of the \$1.7 billion I-15 Core project, a rebuild of 24-miles of I-15, from Lehi to Spanish Fork. It will be closed for 180 days.

Local traffic can take Main Street, in Spanish Fork, or state Route 51, to 400 South, in Springville. A map of alternate routes is available online at www.udot.utah.gov/i15core.

UDOT encourages drivers to plan ahead and stay informed to avoid delays, by signing up for weekly e-mail updates at www.udot.utah.gov/i15core.
